Mental Illness Disorders

I am a 13 year old teenager that feels Mental Illness Disorders should be more talked about and dealt with. I feel that people that suffer from these illnesses can feel better if they knew that others care and want to help. Creating Art in my style as inspired by the famous artist Tim Burton, I have created my own version of how I visualize Mental Illness Disorders. Individuals go through alot when they suffer from these disorders. I want to help the individuals understand that there is nothing wrong with them because its a condition that exist and that I'm willing to advocate in my Art. As a reminder to the viewers, Please do not find these disturbing as I do not wish to offend anyone with my art.
